W3C HTML Validator

The following pages were passed through the W3C HTML validator:

- index.html
- lessons.html
- timetable.html
- location.html

Some errors were found. This has been corrected and passed through the W3C HTML validator again. The pages passed without errors or warnings.

W3C CSS Validator

The following pages were passed through the W3C CSS validator:

- style.css

Some errors were found. This has been corrected and passed through the W3C CSS validator again. The page passed without errors or warnings.

User's goal:

As a user, I want to know what lessons available in the gym

- On a desktop, a simple navigation bar is displayed in the top right corner of the corner page. The "Lessons" item provides users with information about all the classes taught at Infinity Gym.
- If you are interested in one of the lessons, there is a button at the bottom of the explanation that refers to the "Timetable".
- On a mobile device, you will see a drop-down menu with the options "Lessons".

As a user, I want to know the class timetable so that I can plan my workout routine around my favorite lesson.

- On a desktop, a simple navigation bar is displayed in the top right corner of the corner page. The "Timetable" item provides users with information about a weekly timetable.
- The class schedule from Monday to Sunday is displayed on the schedule page. It is easily accessible from the navigation bar.
- If you are interested in one of the lessons from the timetable, there is a button at the bottom of the timetable that refers to the "Lessons".
- On a mobile device, you will see a drop-down menu with the options "Timetable".

As a user, I want to be able to locate the gym.

- On a desktop, a simple navigation bar is displayed in the top right corner of the corner page. The "Location" item provides users with information about the location.
- The address and a picture of "Google maps" will show the location of Infinity Gym.
- On a mobile device you will see a dropdown box with the options "Location".

As a user, I want to view the gym's contact information so that I can ask about the membership.

- On a desktop, you can press the "Call us" button when opening the website. A pop-up will open with the phone number of Infinity Gym.
- On the navigation bar in the top right corner of the corner page, the user will find the item "Location" which gives the user the contact details of the gym.

Site owner's Goal:

As the site owner, I want the user to have an easily accessible site.

- The user can easily move around the navigation bar and see the menu items.

As the site owner, I want to be able to inform visitors of the class timetables.

- The user can find a simple and clear timetable (Monday-Sunday) on the timetable page.

As the site owner, I want to be able to inform visitors the location of the gym.

- The user can easily navigate to the location page.
- The user can easily move around the index / about page and see the "Call us" button.

Further testing

The website has been tested on multiple browsers such as:

- Google Chrome
- Safari (IOS)
- Internet Explorer
- Mozilla Firefox

The website has also been tested on various devices such as:

- Desktop
- Laptop
- And various cell phones

All pages and navigation links work properly and have been checked.

- Home/ About
- Lessons
- Timetable
- Location

Note: The check mark () shows that it is working properly
